## Plain Brace.

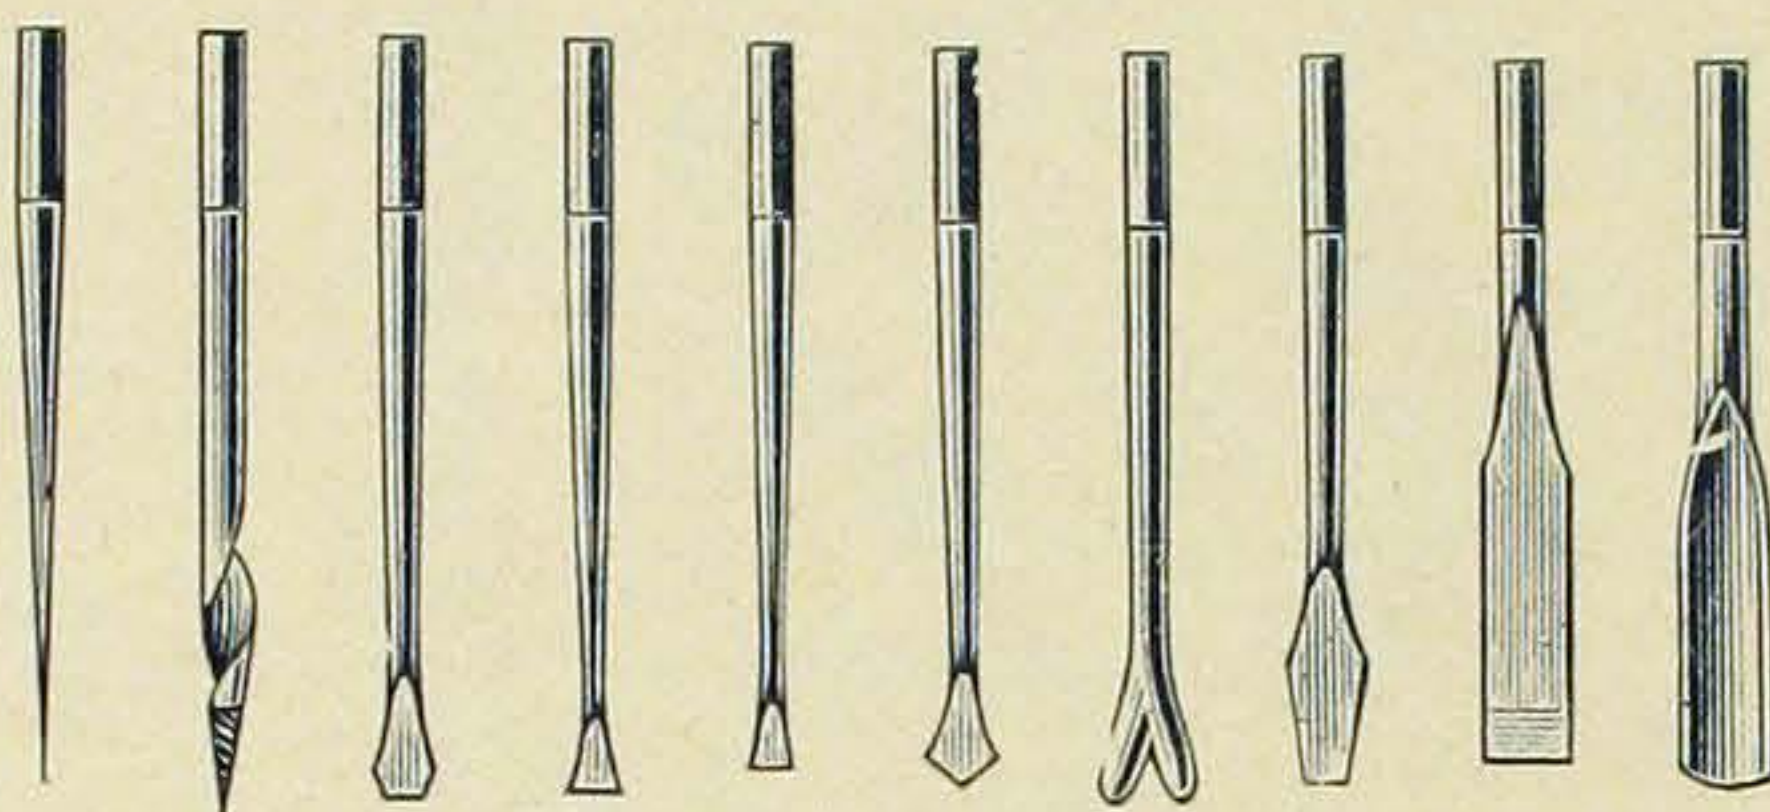

106— 6 in. Sweep, per dozen,	\$21.00
108— 8 in. " " " "	24.00
110—10 in. " " " "	27.00
112—12 in. " " " "	30.00

The working parts of Standard Patent Bit Brace are made of steel, thoroughly case hardened and interchangeable, and for efficiency and durability have no equal. They will hold round shank twist drills as well as any drill chuck; there is no other brace that can approach it for this purpose, and will hold square shanks tighter than the common braces. Lignum Vitæ Head, Rosewood Handle, finely polished and nickel plated.

Contains 10 Tools.

Contains 8 Tools.

Patented March 2, 1886.

A detailed illustration of a screwdriver. The handle is dark, possibly black or dark brown, with a textured, ribbed surface. It has a bulbous shape with a central longitudinal slot. The shaft is long, thin, and polished, extending from the handle to a flat, double-fluted tip. The background is a light, neutral color.

Patented March 25, 1890.
